My name is Elsadig Mohamed. I am a freelancer visual artist, born and raised in Omudurman, Sudan. I graduated from Multimedia studies in 2008. My passion for visual storytelling grew through my commitment to learning technical filmmaking practices during multiple film workshops in Sudan and beyond my continent. I look at my journey as a nomad, therefore I use my work to make sense of my constantly changing surrounding. Visual exploration and research are my tool to develop innovative storytelling to connect with people.
